

{Since 1856}

# GRAY'S BREWING CO.

{Janesville, WI}

## Honey Ale

Wisconsin's original honey beer, Gray's Honey Ale is brewed using locally harvested honey and brewed in small batches to insure exacting flavor and freshness. The generous amount of honey is evident in the unique refreshing flavor and extraordinary aroma. Honey is used as a fermentable sugar source rather than a flavoring agent, as commonly used in national brands. Gray's Honey Ale is a flavorful refreshing beer.

## Bully Porter

A classic British style brown porter that at one time was considered the beer of the working class. You will notice a ruby brown body with an aroma of malt and mild roastiness. This style differs from a robust porter in that it has a softer, sweeter and more caramelly flavor. The Bully Porter contains chocolate, nutty and toffee-like undertones with medium to low hop bitterness.

## Oatmeal Stout

Rich in color with a strong roasted flavor and creamy texture, the 56 Oatmeal Stout is a true dark beer lover's beer. Generous amounts of fresh rolled oats, paired with aromatic hops and richly roasted barley lead to the unique coffee-like flavor. The 56 refers to the year, 1856, the brewery was founded by Joshua C. Gray. Today the brewery continues the tradition of brewing big, fresh, flavorful beers.

## Busted Knuckle

This Irish Style Ale is a special blend of four types of malted barley and three varieties of hops. It is a medium-bodied ale showing off a deep reddish amber color and thick, tan bubbly head. The aroma is sweet and light followed by moderate caramel-malt flavors with a light roasty finish. Try some and you'll agree, the Irish Ale is the gold at the end of the rainbow.

## Rock Hard Red

Gray's most unique malt beverage is perfect for those looking for something different. Rock Hard Red offers a unique berry flavor, not tart, complimented with a sweet aroma and no bitter after-taste. Lightly carbonated, we recommend that you enjoy RHR chilled, over ice, in a nice tall glass.

## Rathskeller

A uniquely distinctive ale brewed with a special blend of malted barley and floral hops. It's characterized by a rich golden color, robust full-bodied flavor topped with a rich creamy head and refreshing aroma. Already a favorite of those who appreciate an ale with real character.

## Wisco Wheat

This German style ale is a unique blend of Belgium malted wheat and domestic two-row barley. Sporting a slightly opaque, pale straw color, this beer is mildly hopped and has an attractive fruity aroma. Unfiltered, a glass of Wisco Wheat offers an appetizing, tall, white, creamy head. Smooth lemon and citrus flavors provide for a refreshing brew that can be enjoyed any time of the year.
